## ANPz51/RES/LT/HV - linear znanopositioner

1003271

## **Technical Specifications**

| Size and Dimensions                   |                                |
|---------------------------------------|--------------------------------|
| footprint; height                     | 15 mm x 18 mm; 13.5 mm         |
| maximum installation space            | 15 mm x 18 mm; 16 mm           |
| weight                                | 13 g                           |
| height                                | 13.5 mm                        |
| Materials                             |                                |
| positioner body                       | titanium                       |
| actuator                              | PZT ceramics                   |
| connecting wires                      | insulated twisted pair, copper |
| Coarse Positioning Mode               |                                |
| travel range (step mode)              | 2.5 mm                         |
| maximum drive velocity @ 300 K        | ~ 1 mm/s                       |
| input voltage range                   | 0 - 60 V                       |
| Fine Positioning Mode                 |                                |
| fine linear positioning range @ 300 K | 3.5 μm                         |
| fine linear positioning range @ 4 K   | 0.5 μm                         |
| fine positioning resolution           | sub-nm                         |
| input DC voltage range @ 300 K        | 0 - 100 V                      |
| input DC voltage range @ 4 K          | 0 - 150 V                      |
| Position Encoder                      |                                |
| readout mechanism                     | resistive sensor               |
| encoded travel range                  | full travel                    |
| sensor resolution                     | ~ 200 nm                       |
| sensor power (when measuring)         | 0.01 - 1 mW                    |
| repeatability                         | 12 μm (unidirectional)         |
| Load (@ ambient conditions)           |                                |
| maximum load                          | 50 g                           |
| maximum dynamic force along the axis  | 1 N                            |
| General Specifications                |                                |
| environment                           | /LT/HV                         |
